

ENVIRONMENTAL POLICY

- Mission:** Production of mineral fertilisers using high quality primary products and materials.
- Vision:** Achieving a high level of environmental protection through the application of best available production methods.
- Motto:** Let's preserve nature for future generations.

The MANAGEMENT OF LIFOSA AB assumes responsibility for the nature and scope of its products and services and their impact on the environment and, in order to reduce this impact, UNDERTAKES:

1. To continuously improve the environmental management system to increase environmental performance.
2. To protect the environment in its activities by implementing the best economically available production methods and tools, and the latest, environmentally – friendly technologies, and to strive for the improvement of pollution prevention.
3. To fulfil compliance obligations related to the company's activities and the impact of environmental protection aspects on the environment.
4. To use raw materials, natural and energy resources rational and sparingly.
5. Cooperate with suppliers, contractors and all stakeholders on environmental issues to reduce negative environmental impacts.
6. To educate, train and encourage employees to work consciously while protecting the environment and feel responsible for the impact of their activities on the environment both at work and at home.

The COMPANY'S MANAGEMENT guarantees the implementation of this policy and the provision of resources to achieve the policy objectives and invites all employees to concentrate their efforts on its implementation.

AB LIFOSA environmental policy is available to employees and stakeholders.
